

CALL FOR PAPERS

ICLSP 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLSP 2020 : International Conference on Lightning Science and Protection is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Lightning Science and Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Lightning science
Lightning and static electricity
Lightning zoning
Lightning direct effects
Lightning physical effects and observation
Lightning and atmospheric phenomenology
Fuel tanks and fuel systems
Lightning protection of materials, devices and systems
Lightning induced effects

Electrostatics
Lightning standards and safety
Wind turbines, photovoltaic systems and other electric power systems
Automobile, train, and other vehicles
Space craft and launch complex
Numerical modelling and analysis
Lightning damage repair and maintenance
Winter lightning
