**Dec 10-11, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSFSERS 2020 : International Conference on Space Frame Structures, Earthquake Resistance and Stability is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Space Frame Structures, Earthquake Resistance and Stability. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Space frame structures  
Method of support  
Design parameters  
Cambering and slope  
Methods of erection  
Latticed shells

Structural analysis  
Design loads  
Static analysis  
Earthquake resistance and  
stability  
Jointing systems
