

CALL FOR PAPERS

ICSLM 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSLM 2020 : International Conference on Software Lifecycle Models is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Software Lifecycle Models. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Software lifecycle
Systems development lifecycle
Software development lifecycle
Software lifecycle models
Lifecycle stages
Limitations of lifecycle models
Waterfall life cycle model
V-shaped life cycle model
Incremental life cycle model
Spiral life cycle model
Software development
Methodologies
Software development activities

Identification of need
Planning
Designing
Implementation, testing and documenting
Deployment and maintenance
View model
Business process and data modelling
Computer-aided software engineering
Integrated development environment
Modeling language
Programming paradigm
Reuse of solutions
Communication
