

CALL FOR PAPERS

ICSSD 2020
Dec 10-11, 2020
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSSD 2020 : International Conference on Systems, Signals and Devices is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Systems, Signals and Devices. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Systems Automation and Controls
Advances in Linear Control Theory
Modeling and Identification
Linear and Nonlinear Control
Predictive and Adaptive Control
Neural and Fuzzy Control
Man-Machine Systems
Large Scale Systems
Robotics and Mechatronics
Micro and Nano Electronic Systems
Simulation, Validation and
Verification
Device Modeling

SOC, NOC, SIP Design
Analog and Mixed Signal Testing
Nanostructured Materials and
Devices
Modeling and Simulation at the
Nanoscale
Sustainable Nano Manufacturing
Communication, Signal Processing
and Information Technologies
Communication Systems
Digital Signal Processing
Wireless Communication
Coding Compression and Information
Theory
Image, Video and Speech Processing
Computational Intelligence
