

# CALL FOR PAPERS

**ICVNNH 2020**  
**Dec 10-11, 2020**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICVNNH 2020 : International Conference on Vehicle Noise, Vibration and Harshness is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Vehicle Noise, Vibration and Harshness. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Acoustic Analysis, Noise and  
Vibration Measurement  
Acoustical Measurement and  
Instrumentation  
Acoustical Standards for Noise and  
Vibration Control  
Active Control of Noise and  
Vibration  
Active Noise and Vibration Control  
Aeroacoustic Noise  
Aeroacoustics, Noise and Vibration  
Aeroacoustics Including Wind Noise  
Automotive Acoustics and Vibration  
Automotive Interior Noise and  
Vibration Damping  
Automotive Noise and Vibration  
Automotive Noise and Vibration  
Analysis  
Automotive Noise and Vibration  
Control

Automotive Noise and Vibration  
Control Practices  
Automotive Noise and Vibration  
Identification  
Automotive Noise and Vibration:  
Theory and Applications  
Automotive Noise, Sound and  
Vibration  
Automotive Noise, Vibration and  
Harshness  
Automotive Noise, Vibration and  
Harshness (NVH) Materials  
Body Interior Noise  
Brake and Chassis Systems  
Car and Truck Pass-by Noise  
Commercial and Specialty Vehicles  
Damage Risk Criteria for Hearing  
and Human Body Vibration  
Data Analysis  
Determination of Sound Power Levels  
and Directivity of Noise Sources
