

CALL FOR PAPERS

ICAGFC 2020
Dec 03-04, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAGFC 2020 : International Conference on Advances in Green Fluorine Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Green Fluorine Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green fluorine chemistry
Fluorine and the environment
Recent advances in green fluorine chemistry
Green surfactants for fluorine chemistry
Fluorine in organic chemistry
Organic fluorine chemistry
Fluorinated pharmaceuticals
Organo-fluorine chemical science
Fluorination of organic compounds
Flow microreactor synthesis in organo-fluorine chemistry

Fluorine in pharmaceutical industry
Preparation of highly fluorinated compounds
Selective fluorination
Nucleophilic displacement of halogen from fluorocarbon systems
Elimination reactions
Polyfluoroalkanes, polyfluoroalkenes, polyfluoroalkynes and derivatives
Functional compounds containing oxygen, sulphur, nitrogen and their derivatives
Polyfluoroaromatic compounds
Organometallic compounds
