

CALL FOR PAPERS

ICCC 2020
Dec 24-25, 2020
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCC 2020 : International Conference on Cybernetics and Computers is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cybernetics and Computers. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Computer science and cybernetics
- Cybernetics and its application
- Computer systems and algorithms
- Systems and circuits
- Engineering mathematics
- Analysis of cybernetic systems
- Computer programming technologies
- Functional programming
- Logic and discrete mathematics
- Electronic devices
- Software engineering
- Algorithmic techniques

- Neurocomputation
- Computer controlled feedback systems
- Machine intelligence
- Virtual reality
- Manipulator robotics
- Mechatronics
- Computer networking
- GUI, web and multimedia design
- XML technologies and applications
- Evolutionary computation
- Distributed systems
- Linear algebra for computer vision and robotics
