

CALL FOR PAPERS

ICUASSE 2020
Dec 24-25, 2020
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUASSE 2020 : International Conference on Unmanned Aerial Systems and Systems Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Unmanned Aerial Systems and Systems Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Unmanned aerial systems
- Autonomous systems
- Aerospace sensor technologies
- Aerodynamic technologies
- Systems engineering
- Guidance navigation and control
- Unmanned systems operational analysis
- Air traffic management
- System of systems simulation
- Aerospace design and optimization

- Aerospace propulsion
- Smart materials and structures
- Composite structures and health monitoring
- Rotorcraft
- Flight safety
- Reconfigurable
- Fault tolerant control
- Flight dynamics
- Small unmanned aerial vehicles
