

# CALL FOR PAPERS

**ICUETNMTSCD 2020**  
**Dec 24-25, 2020**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUETNMTSCD 2020 : International Conference on Urban Energy Transition and New Modeling Tools in Sustainable City Development is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Energy Transition and New Modeling Tools in Sustainable City Development. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Urban energy transition in sustainable city development  
Urban data and urban modeling  
Urban energy systems and renewable energy systems  
New energy and transport concepts  
Air quality and urban microclimate  
Network infrastructure

Demand response and storage  
Smart grids  
Citizen involvement  
Multi-modal transport  
Sharing economy  
New planning, modeling, and optimization tools
