

CALL FOR PAPERS

ICWMS 2020
Dec 24-25, 2020
Vienna, Austria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWMS 2020 : International Conference on Warehouse Management Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Warehouse Management Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Warehouse management
Warehouse management systems and software
Warehouse management functions
Global warehouses
Warehouse space, policies and procedures
Determining storage requirements

Warehouse preparation planning
Managing inventory levels
Stock control and movements
Resource requirements
Individual stock keeping units
Warehouse storage locations
