

CALL FOR PAPERS

ICABEA 2021
Jan 21-22, 2021
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABEA 2021 : International Conference on Advances in Biomaterials Engineering and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biomaterials Engineering and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomaterials engineering	Bone cement
Biomaterials	Artificial ligaments and tendons
Biomineralization	Dental implants for tooth fixation
Self-assembly	Blood vessel prostheses
Structural hierarchy	Heart valves
Biohybrid artificial organs	Skin repair devices (artificial tissue)
Blood-material interactions	Cochlear replacements
Tissue engineering	Contact lenses
Regenerative medicine	Breast implants
Biopolymers	Drug delivery mechanisms
Biomineralization	Sustainable materials
Joint replacements	Vascular grafts
Bone plates	Stents
