

# CALL FOR PAPERS

**ICPPI 2021**  
**Jan 21-22, 2021**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPI 2021 : International Conference on Phytopathology and Pathogenic Infections is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Phytopathology and Pathogenic Infections. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Phytopathology  
Plant pathology  
Modern plant protection  
Plant pathogens  
Fungi and Fungus-like organisms  
Bacteria  
Phytoplasmas and spiroplasmas  
Viruses, viroids and virus-like organisms  
Nematodes  
Protozoa and algae  
Parasitic plants  
Common pathogenic infection methods

Physiological plant disorders  
Epidemiology  
Disease resistance  
Phytopathological virology, bacteriology, mycology  
Applied nematology and entomology  
Diagnosis plant diseases  
Computer-assisted diagnosis  
Research and new findings in plant and soil hygiene  
Biological methods of plant protection  
Chemical methods of plant protection  
Plant-protecting agents and toxicology  
Crop resistance
