The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICATA 2021 : International Conference on Automobile Technologies and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Automobile Technologies and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mechanical, Production and
Automobile Engineering
Aerodynamics
Aerospace Systems and Technology
Alternative energy
Applied Mechanics and Design
Automation
Biomechanics
Computational Fluid Dynamics
Computer aided engineering design
Concurrent Engineering
Condition monitoring
Design and Manufacturing
Energy and Thermofluids

Energy conversion system
Energy Management
Finite element analysis
Fluid Dynamics
Fuels and Combustion
Green Manufacturing
Heat and Mass Transfer
Heat exchangers
Heat Transfer
Industrial Engineering
Industrial Tribology
Instrumentation and Control
Internal Combustion Engines
