

CALL FOR PAPERS

ICCII 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCII 2021 : International Conference on Cellular Immunology and Immunotherapeutics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cellular Immunology and Immunotherapeutics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cellular Immunology and Latest Innovations
Natural killer cell immunology
Diverse immunologic roles of T cells
Delayed-type hypersensitivity or cellular immunity
Immunologic deficiency states and their reconstitution
Immunologic surveillance and tumor immunity
Immunomodulation
Nonantibody immunity
Parasite immunology
Resistance to intracellular microbial and viral infection
Thymus and lymphocyte immunobiology
Transplantation Immunology
Clinical Immunology

Cancer and Tumor Immunobiology
Inflammation and Therapies
Immunology- Research for Nurses
Molecular and Structural Immunology
Transplantation Immunology
Infectious Diseases, Emerging and Reemerging diseases: Confronting Future Outbreaks
Autoimmune Diseases
Viral Immunology: Emerging and Re-emerging Diseases
Pediatric Immunology
Immunotherapy and Cancer
Immunotherapy: From Basic Biology to Translational Research
Immunology and Diabetes
Immune Tolerance
Vaccines and Immunotherapy
