

# CALL FOR PAPERS

**ICCSM 2021**  
**Jan 14-15, 2021**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSM 2021 : International Conference on Civil Structure Maintenance is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Civil Structure Maintenance. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Civil engineering infrastructure  
maintenance

Maintenance and operation of  
infrastructure systems

Condition assessment and  
rehabilitation of civil  
infrastructure

Strengthening and rehabilitation of  
civil infrastructures

Deterioration of construction  
materials

Evaluation, non-destructive testing  
and rehabilitation of existing  
structures

Properties and applications of  
repair materials

Seismic retrofit of bridges

Analysis and design of structural  
members

Advanced infrastructure management

Strengthening and retrofitting of  
concrete structures

Repair and rehabilitation of  
concrete structures

Structural performance assessment  
and monitoring

Condition assessment and remedial  
action on steel structures

Structural concrete properties and  
practice

Structural dynamics with  
applications

Bridge management and maintenance
