

CALL FOR PAPERS

ICCUE 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCUE 2021 : International Conference on Coastal and Underwater Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coastal and Underwater Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Beach dynamics and early diagenesis
Beach Erosion and Sediment Transport
Coastal Climate Resilient Infrastructure
Coastal Infrastructure Vulnerability
Coastal Management
Coastal Risk Reduction and Resilience
Coastal Protection and Restoration
Climate Change Risks to Coastal Buildings and Infrastructure
Climate Change and Sea Level Rise
Coastal and Ocean Engineering
Coastal Infrastructure Developments
Deep Sea Engineering
Estuary Coastal Engineering

Geological oceanography
Geophysical studies of the seabed
Geophysical, geochemical, sedimentological and paleontological investigations of the ocean floor and coastal zone
Human Settlements, Infrastructure and the Built Environment
Hydrodynamics of off Shore Structures
Hydrogeology
Lowland Development and Reclamation
Marine and Offshore Wind Energy
Marine Ecology and Environments
Marine Energy Engineering
Marine geology
Microbiological studies in sediments
Offshore Engineering
