

# CALL FOR PAPERS

**ICDMIIS 2021**  
**Jan 14-15, 2021**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDMIIS 2021 : International Conference on Digital Media Informatics and Information Science is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Media Informatics and Information Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital media informatics	
Digital media and information studies	
Applications of digital media informatics	
Common or current topics in digital media informatics	
Digital media informatics and communication engineering	
Digital media informatics, information and communication systems	
Communication channels and mobile devices	
Designing user-friendly interfaces	
Software and systems used in digital media	
Digital media and multimedia technologies for media informatics	
Digital media informatics and internet infrastructures	
Digital media informatics and data communication	
Digital interactive media	
	Management of information and information processing
	Computer graphics/animation/visualization
	Speech/image/video processing and technology
	Game design in media and communication systems
	Security and cryptography in media informatics
	Media informatics and user privacy
	Designing interactive systems
	Cooperative work environments
	E-business
	Knowledge management and information systems
	Virtual and augmented reality
	Applications of software engineering in media informatics
