

CALL FOR PAPERS

ICEMBD 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMBD 2021 : International Conference on Evolutionary Mechanisms and Biological Diversity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Evolutionary Mechanisms and Biological Diversity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biodiversity	Number of species
Biological diversity	Species loss rates
Evolution and history	Threats
Evolutionary diversification	Habitat destruction
Biodiversity and ecosystem services	Introduced and invasive species
The balance of evidence	Genetic pollution
Services enhanced by biodiversity	Overexploitation
Biodiversity and agriculture	Hybridization, genetic pollution/erosion and food security
Biodiversity and human health	Climate change
Biodiversity, business and industry	Human overpopulation
Biodiversity, leisure, cultural and aesthetic value	The holocene extinction
Biodiversity and ecological services	Conservation
