

CALL FOR PAPERS

ICETA 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICETA 2021 : International Conference on Epigenetic Technological Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Epigenetic Technological Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Epigenetic technology	Combinatorial epigenetic techniques
Advances in epigenetic technology	Genome editing
Epigenetic technologies and research	Epigenome and transcriptome editing
Measurement and mapping of genomic	Next-generation sequencing
Translational epigenetics	Sequencing technology solutions
Epigenetic regulation	Dna sequencing
Bioinformatics and biostatistics in epigenetic disease markers and targets	Rna sequencing
Computational modeling	Fragment analysis
Chromatin analysis	Sequencing education
Protein interaction analysis
