

CALL FOR PAPERS

ICGPG 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGPG 2021 : International Conference on Geohazards and Physical Geology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geohazards and Physical Geology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental geology	Structural geology
Seismology and rock mechanics applied to seismology	Environmental issues
Dynamic tectonics	Atmospheric chemistry
Earthquake and structural engineering	Remote sensing and GIS
Petroleum geology	Oceanography
Geology and mineral resources	Earthquakes and other natural hazards
Exploration geophysics	Earth science market
Geology engineering	Mining geology
Exploration, development and production of earth resources	Geology and civil engineering
Mineral processing, waste management and recycling	Physical geology
Geological materials engineering	Geological modelling
Geology and mineral resources	Paleontology
Sedimentology and costal process	Geological consulting
