

# CALL FOR PAPERS

**ICGVM 2021**  
**Jan 14-15, 2021**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGVM 2021 : International Conference on Geographic Visualization and Mapping is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geographic Visualization and Mapping. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geographic visualization  
The nature of geographic visualization  
The visualization process  
Digital transition and geographic visualization  
Fundamental spatial concepts  
Multiple views for exploratory geovisualization  
Data preparation  
Informative visualizations  
Interaction and manipulation  
Map animation for geographic visualization  
High-resolution aerial photography

Aerial photography, property and surveillance  
High-resolution self-organizing maps of geographic features  
Self-organizing maps  
Visual cities and the visual earth  
Three-dimensional geographical visualization  
Landscape visualization  
Visualization, data sharing and metadata  
Visualizing uncertainty information  
Geovisualization and time  
Visualizing data gathered by mobile phones
