

CALL FOR PAPERS

ICIMCFM 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIMCFM 2021 : International Conference on Inorganic Materials Chemistry and Functional Materials is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Inorganic Materials Chemistry and Functional Materials. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Inorganic chemistry of materials
Inorganic chemistry
Bioinorganic compounds
Characterization of inorganic compounds
Cluster compounds
Coordination compounds
Crystallographic aspects of materials
Descriptive inorganic chemistry
Industrial inorganic chemistry
Inorganic biochemistry
Kinetics of complex formation
Kinetics of hydrolysis of complex compounds
Main group compounds

Main group elements and lanthanides
Mechanistic inorganic chemistry
Molecular symmetry group theory
Organometallic compounds
Qualitative theories
Solid state compounds
Solution inorganic chemistry
Synthetic inorganic chemistry
Theoretical inorganic chemistry
Thermal stability of complex compounds
Thermodynamics and inorganic chemistry
Transition metal complexes
Transition metal compounds
