

# CALL FOR PAPERS

**ICMRA 2021**  
**Jan 14-15, 2021**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMRA 2021 : International Conference on Micropollution and Risk Assessments is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Micropollution and Risk Assessments. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Freshwater quality
- Marine water quality
- Groundwater and aquifer issues
- Water management
- Remediation
- Agricultural contamination
- Wastewater treatment and management
- Offshore pollution and oil spills
- Mining and water quality
- Soil erosion and water pollution
- Emerging technologies
- Health risk studies
- Micropollution and nanoparticles

- Microbiological aspects
- Risk assessments
- Education and training
- Population and climate change
- Future trends in water pollution
- Air pollution modelling
- Air pollution mitigation and management
- Aerosols and particles
- Emission studies
- Health effects
- Indoor air pollution
- Air data quality
- Monitoring and measuring
