

CALL FOR PAPERS

ICMTECS 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMTECS 2021 : International Conference on Materials and Technologies for Energy Conversion and Storage is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Materials and Technologies for Energy Conversion and Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Solar energy materials
Thermoelectric materials
Electrochemical and chemical energy conversion and storage
Fuel cells and materials
Electrochemical cells and materials
Super-capacitors
Photo-electrochemical solar energy conversion
Renewable energy
Primary, secondary and reserve batteries

Bio-energy and materials
Fossil fuel energy and materials
Hydrogen energy production technologies
Mesoporous material and energy applications
Carbon nanomaterials and energy applications
Nanomaterials and nanostructures for energy applications
2D materials for energy conversion and storage
Polymer membranes for energy applications
