

# CALL FOR PAPERS

**ICNNEA 2021**  
**Jan 14-15, 2021**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNNEA 2021 : International Conference on Nanotechnology and Nanomaterials for Energy Applications is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanotechnology and Nanomaterials for Energy Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Catalysis and photocatalysis  
Device engineering, physics and chemistry  
Energy harvesting, Solar cells and solar thermal  
Energy storage, batteries and supercapacitors  
Fuel cells and hydrogen  
Functional materials and materials discovery  
Hydrogen storage  
Hydrogen technology

Manufacturing and scale-up and commercialization of nanomaterials  
Nanomaterial synthesis, characterization and metrology  
Nanomaterials and nanotechnology  
Nanotechnology integration  
Nanotechnology, Nanomaterials and Thin Films for Energy Applications  
Smart materials  
Thermoelectrics  
Thin Films, coatings, surfaces
