

CALL FOR PAPERS

ICNTARP 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNTARP 2021 : International Conference on Nuclear Technology, Applications and Radiation Protection is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nuclear Technology, Applications and Radiation Protection. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear technology
Industry and research
Nuclear power
Medical applications
Radiation protection
Economic development
Industrial applications
Commercial applications
Food processing and agriculture
Production of radioisotopes
Industrial and research uses of
radioisotopes and radiation
Tracer applications
Leak detection

Pipeline interfaces
Flow patterns
Flow rate measurements
Labeled reagents
Tracer dilution
Wear analyses
Mixing times
Residence times
Frequency response
Surface temperature measurements
Radiodating
Materials affect radiation
Radiography
