

CALL FOR PAPERS

ICPMACCS 2021
Jan 14-15, 2021
Bali, Indonesia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMACCS 2021 : International Conference on Plant and Microbe Adaptations to Cold and Chilling Stress is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plant and Microbe Adaptations to Cold and Chilling Stress. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Breeding
Chilling stress
Cold acclimation
Cold-induced genes/proteins
Freezing stress
Gene regulation
Genetics

Light regulation and signaling
Plant hormones
Plant-microbe interaction
Signal transduction
Snow mold
Winter hardening
