

# CALL FOR PAPERS

**ICAPSC 2021**  
**Jan 18-19, 2021**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPSC 2021 : International Conference on Advanced Power Systems and Components is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Power Systems and Components. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power systems  
Advanced signal processing for smart grids  
Micro-grids and nano-grids  
Energy storage devices and systems  
Capacitors and reactors  
Transmission and distribution  
Power system analysis, modeling, control and stability, protection and operations  
Distributed generation  
Micro electro-mechanical systems

Thermodynamics  
Fluid machinery  
Theory of machines  
Materials science and technology  
Circuit theory and network  
Electrical machines  
Combustion engines  
Materials for power engineering
