

CALL FOR PAPERS

ICIEOM 2021
Jan 18-19, 2021
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIEOM 2021 : International Conference on Industrial Engineering and Operations Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Industrial Engineering and Operations Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Engineering management
Facilities planning and management
Human factors and ergonomics
Inventory management
Logistics management
Manufacturing and design
Modeling and simulation
Operations management
Operations research
Production planning and management

Industrial automation and control
Project management
Quality control and management
Reliability and maintenance
Service systems and service management
Supply chain management
Sustainability and green systems
Systems engineering
Technology management
