

CALL FOR PAPERS

ICGAE 2021
Jan 28-29, 2021
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGAE 2021 : International Conference on Green Architecture and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Architecture and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adapting to Climate Change
Architecture and Building
Architecture Engineering
Building Energy Conservation and Green Architecture
Building Energy Saving Technology
Civil Engineering
Civil Engineering Materials
Conserve Energy
Construction and Renewable Energy Sources
Construction Engineering Systems
Design for Deconstruction
Design for Minimizing and Using Construction and Demolition Waste
Develop Energy Efficient Buildings at Design Stage to Secure Long-term Savings

Environmental Science and Engineering
Geotechnical Engineering
Green Architecture and Alternative Energy Sources
Green Building and Environment
Green Building Architecture
Green Building Materials
Green Buildings and Architecture
Green Buildings and Pollution
Green Construction or Sustainable Building
Landscape Planning and Design
Smart Materials
Structural Engineering
Sustainable Design and Architecture
