

# CALL FOR PAPERS

**ICAICN 2021**  
**Jan 21-22, 2021**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAICN 2021 : International Conference on Advances in Information-Centric Networking is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Information-Centric Networking. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Information-centric networking  
(ICN) in Internet of Things  
Networking layer and forwarding  
strategies in ICN  
Interest/data forwarding in content  
centric networks  
Interest/data forwarding in named  
data networks  
ICN application layer operations  
and models for testing/evaluation  
Analysis of content-centric  
networking in current network  
paradigms  
Analysis of named data networking  
in current network paradigms  
Congestion control protocols in ICN  
for both Ad-hoc and wired networks

Business perspective of applying  
ICN in real world environment  
Future Internet in vehicular ad hoc  
networks  
Future Internet in big data  
Transport layer issues in future  
internet architectures  
Multimedia applications and  
feasibility with future internet  
architectures  
Underwater future networks  
Future Internet in smart cities
