

# CALL FOR PAPERS

**ICAAEA 2021**  
**Jan 25-26, 2021**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAAEA 2021 : International Conference on Advanced Aerospace Engineering and Aerostructures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Aerospace Engineering and Aerostructures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced theoretical models  
Advances in aerospace technology  
Aeroelasticity and loads  
Aerodynamic's fundamental concepts  
Aerospace robotics and mechatronics  
Flight software engineering and testing  
Aerostructures and composites  
Aeronautics and astronautics  
Aircraft systems  
Aircraft design concepts  
Applied aerodynamics and fluid mechanics

Aviation human factors  
Computational fluid dynamics  
Emerging avionics technology  
Heat transfer mechanics  
Navigation systems  
Novel aero engines  
Rocket theory and design  
Spacecraft avionics systems, subsystems and technologies  
Unmanned aircraft technologies  
Aerodynamic forces and structural flexibility
