

CALL FOR PAPERS

ICAMENS 2021
Jan 25-26, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAMENS 2021 : International Conference on Advanced Mechanical Engineering and Nanomaterials Science is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advanced Mechanical Engineering and Nanomaterials Science. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials Science:

New Materials and Advanced
Materials
Composites
Micro / Nano Materials
Low Dimension Structures
Ceramics
Metal alloy Materials
Biomaterials
Optical/Electronic/Magnetic
Materials
Sensor Materials
Manufacturing Processes and
Mechanical Engineering
Building Materials
New Energy Materials

Environmental Friendly Materials
Thin Films
Protective Coatings and Corrosion
of Materials
Hydrogen and Fuel Cell Science
Engineering and Technology
New Methods of Modeling Properties
Materials
Mechanical Engineering:
Surface Engineering/Coatings
Materials Forming
Materials Machining
Welding and Joining
Laser Processing
