

CALL FOR PAPERS

ICCBB 2021
Jan 25-26, 2021
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCBB 2021 : International Conference on Computational Biology and Biomedicine is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational Biology and Biomedicine. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Genomics and Evolution
Protein and RNA Structure, Protein
Function, and Proteomics
Computational Systems Biology
Next Generation Sequencing Data
Medical Informatics and
Translational Bioinformatics
Cross-Cutting Computational
Methods
