

# CALL FOR PAPERS

**ICBET 2021**  
**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBET 2021 : International Conference on Biomedical Electronics Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Biomedical Electronics Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical electronics  
Biomedical instrumentation  
Biomedical equipment  
Biomedical sensors  
Biomedical metrology  
Microelectronics  
Clinical biochemistry  
Biomechatronics  
Biomaterials  
Biophysics  
Biomechanics of injury and wound  
healing  
Bionics  
Biometrics

Cellular, tissue and genetic  
engineering  
Medical engineering systems and  
applications  
Biomedical intelligence and  
clinical data analysis  
Orthopedic bioengineering  
Computational models  
Robotic vision  
Rehabilitation engineering  
Systems physiology  
Bionanotechnology  
Bioinformatics of diseases  
Bioinstrumentation  
Neural engineering
