

CALL FOR PAPERS

ICBHCR 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBHCR 2021 : International Conference on Boron Hydride Chemistry and Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Boron Hydride Chemistry and Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Boron Hydride Chemistry	Reinterpretation of Some Selected
Structural Data for Clusters, Boron	Complex Systems
Hydrides and Coordination Compounds	Solution Reactions of Borane and
Dynamic Stereochemistry	Substituted Boranes
Advances in Theoretical Studies of	Preparation and Reactions of Borane
Boron Hydrides and Carboranes	Alkylboranes
Self-Consistent Field Theory	Hydroboration of Alkadienes and
Self-Consistent Field Results and	Alkynes
Localization in Borane and	Reactions of Boranes with Other
Carboranes	Functional Groups
Localized Orbitals and Three-Center	Heterosubstituted Boranes
Bond Theories	Boron Cations
Nido- and Arachno-Boron Hydrides	Singly Charged Cations
Structures and Structural	Doubly and Triply Charged Cations
Relationships	Borazines
Application of nmr Spectroscopy to	Structures, Bonding, and
Structural Problems	Spectroscopic Properties of
Gas Phase Reactions of Borane	Borazines
Chemical Reactivity and Active	Syntheses of Borazines
Intermediates	
Some Elementary Reactions of Borane
