

CALL FOR PAPERS

ICDFIE 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICDFIE 2021 : International Conference on Digital Factory and Industrial Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Digital Factory and Industrial Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital factory
Digital manufacturing
Industry 4.0 and industrial
internet of things
Production process simulation
3d modeling
Computer-aided manufacturing

Simulation in manufacturing
systems
Product development, test and
optimization
Production process development and
optimization
Plant design and improvement
Operative production planning and
control
