

# CALL FOR PAPERS

**ICEMMT 2021**  
**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMMT 2021 : International Conference on E-Maintenance and Management Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of E-Maintenance and Management Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

E-maintenance  
Information and communication technologies within e-maintenance  
Big data analytics for e-maintenance  
Intelligent wireless sensors  
Intelligent prognostics tools and e-maintenance  
MEMS sensors  
Lubricating oil sensors  
Smart tags  
Mobile devices and services  
Wireless communication  
Semantic web services for distributed intelligence

Strategies for maintenance cost-effectiveness  
Dynamic and cost-effective maintenance decisions  
Industrial demonstrations of e-maintenance solutions  
E-training in maintenance  
Sensors and data acquisition  
Data collection  
Preprocessing and features  
Data and information fusion from disparate asset management sources  
Diagnosis and prognosis  
Maintenance decision support systems  
Actuators and self-maintenance approaches
