

CALL FOR PAPERS

ICFPNC 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPNC 2021 : International Conference on Future Prospects in Nanozyme Construction is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Future Prospects in Nanozyme Construction. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanozymes in bionanotechnology
Nanotechnology and enzyme engineering
Nanozyme construction and production
Design and synthesis of nanozymes
Nanomaterials with enzyme-like characteristics
Metal oxide-based nanozymes
Metal-based nanozymes

Carbon-based nanozymes
Nanozyme applications in biology and medicine
Nanozymes for biosensing
Nanozymes for antiviral therapy
Recent research trends in nanozymes
Future prospects in nanozymes
