

# CALL FOR PAPERS

**ICFPSDI 2021**  
**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFPSDI 2021 : International Conference on Fire Protection System Design and Installation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fire Protection System Design and Installation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fire protection design	Passive fire protection, fire and smoke barriers
Fire protection engineering	Smoke control and management
Fire protection systems	Escape facilities
Preventing and protecting against fire	Building design, layout, and space planning
Performance-based fire protection design	Fire prevention programs
Fire science and fire dynamics	Fire dynamics and fire modeling
Performance-based design	Human behavior during fire events
Active and passive systems	Risk analysis and economic factors
Fire detection and fire alarm systems	Wildfire management
Active fire protection and fire suppression systems
