

# CALL FOR PAPERS

**ICGICCE 2021**  
**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGICCE 2021 : International Conference on Green Inorganic Chemistry and Chemical Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Inorganic Chemistry and Chemical Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Green inorganic chemistry  
Sustainable inorganic chemistry  
Green inorganic chemical  
engineering  
Coordination and organometallics  
chemistry  
Green synthesis of inorganic  
materials  
Mechanistic inorganic chemistry  
Characterization of inorganic  
compounds  
Supra molecular system chemistry  
Bioinorganic chemistry  
Synthetic inorganic chemistry  
Solid state chemistry  
Theoretical and descriptive  
inorganic chemistry  
Industrial inorganic chemistry and  
sustainability

Inorganic and nuclear chemistry  
Inorganic materials  
Element chemistry  
Inorganic chemistry of elements  
Coordination chemistry  
Isotope chemistry  
Biological inorganic chemistry  
Organometallic chemistry  
Solid-state inorganic chemistry  
Synthetic inorganic chemistry  
Inorganic polymer  
Supramolecular chemistry  
Mechanistic inorganic chemistry
