

# CALL FOR PAPERS

**ICINTN 2021**  
**Jan 18-19, 2021**  
**Rome, Italy**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICINTN 2021 : International Conference on Internet of Nano Things and Nanocommunication is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Internet of Nano Things and Nanocommunication. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

The Internet of Nano-Things (IoNT)  
Technologies and sensors for the internet of nano-things  
Network architecture and protocols for IoNT  
Moving from standardizing IoT to IoNT  
Software and service platforms for IoNT  
Security, privacy, and trust issues for IoNT  
Middleware design for IoNT  
Electromagnetic nanonetworks for IoNT

Synthetic biology and its role in IoNT  
Molecular communication nanonetworks for IoNT  
Device design for nanonetworks interface to IoT  
Future and visionary applications of IoNT  
Communication challenges for electromagnetic nanonetworks  
Frequency band of operation of electromagnetic nano-transceivers  
Channel modeling for molecular communication  
Nanocommunication protocols for nanonetworks
