

CALL FOR PAPERS

ICIS 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIS 2021 : International Conference on Intelligent Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Intelligent Systems
Ant Colony Optimization and Swarm Intelligence
Artificial Immune Systems
Artificial Intelligence
Artificial Life
Associative Memory
Automatic Annotation
Bioinformatics and Biological Computing
Case-Based and Temporal Reasoning
Cognitive Science
Computational Intelligence
Computational Intelligence in Bioinformatics and Computational Biology
Computer Vision Systems

Connectionism
Data Fusion
Data Mining and Data Fusion
Data Mining and Knowledge Discovery
Decision Support Systems
Distributed Artificial Intelligence
DNA Computing
Emotional Intelligence
Evaluation and Refinement of Intelligent Systems
Evolutionary Computation
Evolutionary Optimization
Evolutionary Strategies
Feature Extraction
Fuzziness in Chaotic Systems
