

CALL FOR PAPERS

ICIVCST 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICIVCST 2021 : International Conference on Intra-Vehicle Communication Systems and Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intra-Vehicle Communication Systems and Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Intra-vehicle communications
Intra-vehicle networks
Intra-vehicle digital communications
Automotive networks based intra-vehicular communication applications
Intra- and out-of-vehicle channel measurements and modeling
Vehicle-to-internet communications
Vehicle-to-roadside communications
Mobility and vehicular traffic models

Information collection and dissemination
Analytical and simulation techniques
Experimental systems and field operational testing
Safety and non-safety related applications
Recent standardization efforts and problems
Overview of the activities and status of the ongoing projects
Deployment strategies and predictions
P2P technologies
