

CALL FOR PAPERS

ICMBBP 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMBBP 2021 : International Conference on Marine Biogeochemistry and Biogeochemical Processes is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Biogeochemistry and Biogeochemical Processes. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine biogeochemistry
Biogeochemistry of marine systems
Marine biogeochemical processes and modeling
Methods in biogeochemistry
Incubation experiments
Radioactive tracers
Specific inhibitors
Marine biogeochemical modeling
Conceptual models and computer models
Carbon cycle
Marine sediments

Sources and components of marine sediments
Global patterns of sediment distribution
Bacteria and marine biogeochemistry
Approaches in marine biogeochemistry
Life and environments at small scale
Biogeochemistry of near shore environments
Human influences on ecosystem cycling
Fluctuations in living marine resources
Mass balance in marine biogeochemistry
Regulation and limits of microbial processes
