

CALL FOR PAPERS

ICMCCC 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMCCC 2021 : International Conference on Mathematical Cryptography, Cryptanalysis and Cryptosystems is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mathematical Cryptography, Cryptanalysis and Cryptosystems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mathematical cryptography
Cryptosystems and cryptanalyses
Quantum cryptology
Information security
Theory of cryptology
Algebra and algebraic geometry
Coding theory
Combinatorics and graph theory

Number theory
Probability and stochastic
processes
Combinatorics, probability and
information theory
Discrete logarithms and
Diffie-Hellman
Elliptic curves and cryptography
Discrete logarithms
Lattices and cryptography
