

CALL FOR PAPERS

ICME 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICME 2021 : International Conference on Molecular Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Molecular Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Molecular Ecology
Population and Landscape Genetics
Molecular Tools in Ecology
Genetic Analysis of Populations
Genetic Variation and Diversity

Molecular Evolution
Phylogenetics and Phylogeography
Molecular Approaches to Behavioral Ecology
Conservation Genetics and Genomics
Applied Molecular Ecology
