

CALL FOR PAPERS

ICOE 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOE 2021 : International Conference on Organic Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Discovery and development of
conductive polymers
Physics of liquid crystals
Physics of polymer light emitting
diodes
Physics of small molecule based
light emitting diodes

Thin film transistor technologies
Organic solar cells
From single transistors to logical
circuits
Pixel circuits of organic light
emitting displays
