

CALL FOR PAPERS

ICPPME 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPPME 2021 : International Conference on Persistent Pollutants in Marine Ecosystems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Persistent Pollutants in Marine Ecosystems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Pollution of marine ecosystems
Marine pollution management
Integrated marine pollution management
Marine pollution prevention, control and management
Shipboard waste management and marine pollution prevention
Physics of shipboard waste
Marine waste disposal
Operational waste management
Waste handling equipment and technologies

Marine pollution and water quality monitoring
Climate changes and marine ecosystems
Chemical contaminants and issues of emerging concern
Coastal eutrophication and hypoxia
Multiple stressors and biological responses
Seafood safety and sustainable mariculture
Environmental policy and education
Pollution monitoring and control technology
