

CALL FOR PAPERS

ICSCS 2021
Jan 18-19, 2021
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSCS 2021 : International Conference on Smart Coatings and Surfaces is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Smart Coatings and Surfaces. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Smart coatings for materials
protection

Corrosion processes and strategies
for prevention

Smart coatings for corrosion
protection

Techniques for synthesizing and
applying smart coatings

Multi-functional, self-healing
coatings

Protective coatings for automotive,
aerospace, and military
applications

Smart coatings with self-healing
properties for corrosion
protection

Self-healing anticorrosion coatings
for structural and petrochemical
engineering applications

Smart self-healing coatings for
corrosion protection of aluminum
alloys

Magnesium alloys and steel

Smart nanocoatings for corrosion
detection and control

Recent advances in
polyaniline-based organic coatings
for corrosion protection

Smart self-cleaning coatings for
corrosion protection

Smart polymer nanocomposite water-
and oil-repellent coatings for
aluminum

UV-curable organic polymer coatings
for corrosion protection of steel

Smart epoxy coatings for early
detection of corrosion in steel and
aluminum

Structural ceramics with
self-healing properties
